

FREE PHENYTOIN & FREE VALPROIC ACID

EFFECTIVE DECEMBER 17, 2018 TESTING UPDATE FOR FREE PHENYTOIN AND FREE VALPROIC ACID TESTING

Effective December 17, 2018 Wisconsin Diagnostic Laboratories (WDL) is testing specimens for free phenytoin and free valproic acid testing in-house rather than at a reference laboratory

Due to the change, therapeutic ranges for Free Phenytoin and Free Valproic Acid have **changed as follows**:

	Previous Testing Site (ARUP)	New Testing (WDL)
Test	Therapeutic range	Therapeutic range
Free Phenytoin (PHENY F)	1.0-2.5 (mcg/mL)	1.0-2.0 (mcg/mL)
Free Valproic Acid (VALP F)	7-23 (mcg/mL)	5-15 (mcg/mL)
