

PARTIAL THROMBOPLASTIN TIME (PTT) REFERENCE RANGE CHANGE

EFFECTIVE APRIL 2, 2019

ACTIVATED PARTIAL THROMBOPLASTIN TIME (PTT) REFERENCE RANGE CHANGE

Effective April 2, 2019, Wisconsin Diagnostic Laboratories (WDL) will be changing the reference range and the Heparin Therapeutic Range for Activated Partial Thromboplastin Time (PTT).

This change only affects testing performed in the WDL main laboratory.

Test	Current Reference Range	New Reference Range
PTT Reference Range	23-29	22-28
PTT Therapeutic Range	46-76	39-54

Note: Therapeutic range corresponds to Anti-Factor Xa Unfractionated Heparin levels of 0.3-0.7 IU/mL.
