

# QUANTIFERON TB GOLD PLUS 4-TUBE TEST

## QUANTIFERON TB TESTING UPDATE

In a previous communication, Wisconsin Diagnostic Laboratories (WDL) notified you that we would be replacing the 3-Tube QuantiFERON TB Gold test with the QuantiFERON TB Gold Plus 4-Tube test on January 16, 2019.

**Transition to the QuantiFERON TB Gold Plus 4-Tube test is delayed until March 18, 2019.**

All QuantiFERON TB testing performed prior to March 18, 2019 will require the 3-Tube QuantiFERON TB Gold collection kit.

**WDL will begin automatic distribution of the new 4-Tube Collection Kits on March 4, 2019.** Please do not order the 4-Tube Collection Kits in advance.

Additional communication will be released in early March when the tubes are distributed, providing comprehensive specimen collection instructions for the new QuantiFERON TB Gold Plus 4-Tube test.

### Summary

New Test	Mnemonic	CPT Codes	Updated implementation date
QuantiFERON TB Gold Plus 4-Tube	QTFRN TB P	86480	March 18, 2019
Current Test	Mnemonic	CPT Codes	Updated discontinuation date
QuantiFERON TB	QTFRN TB	86480	March 18, 2019
