

EFFECTIVE MARCH 18th, 2019

SALIVARY CORTISOL

REFERENCE RANGE UPDATE

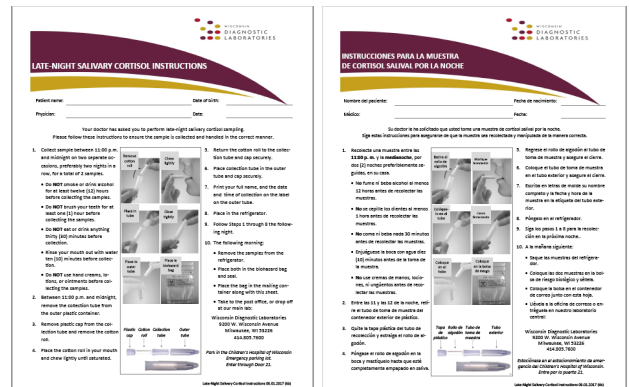

Effective March 18, 2019, Wisconsin Diagnostic Laboratories (WDL) will begin testing salivary cortisol utilizing new instrumentation.

With this change, the upper limit of normal will change from 4.3 nmol/L to **3.2 nmol/L** on specimens collected between the hours of 11:00 p.m. and midnight.

Specimen collection and test ordering will not change. Specimen collection instructions are available on the WDL website in English and Spanish:

https://www.wisconsindiagnostic.com/healthcare_providers/instructions/

Test Information:

Test	Mnemonic	Test Code	CPT Code	Previous Reference Range	New Reference Range
Salivary Cortisol	SAL CORT	3500270	82533	<4.3 nmol/L	<3.2 nmol/L
